NeoAistriq ACADEMY

YOUR EXPERIENCE. YOUR NEXT ADVANTAGE.

Your path from learning to delivery

One connected project. Two career tracks. Evidence you can explain.

CORE PROGRAM	LEARNING ACCESS	FOUNDING TUITION
12 weeks	6 calendar months	US$650 once

Choose the track that fits your starting skills

Applied AI Practitioner
Discovery, configuration, evaluation and adoption.

AI Engineering
Adds code, APIs, debugging, deployment and recovery.

01

WEEKS 1-2

Understand and ground

Choose one useful workflow. Learn AI basics, establish a baseline and work from approved sources.

02

WEEKS 3-4

Connect with control

Practise permissions, human approval, tool use and failure handling. Test before handover.

03

WEEKS 5-8

Make the solution dependable

Strengthen sources, evaluation and workflow design. Keep observed results, corrections and limits.

04

WEEKS 9-12

Deliver and defend your work

Validate a bounded pilot. Measure value, test recovery and defend your own work.

Four human review gates

Scope & foundation / Controlled actions / Deployment & recovery / Live capstone

Guidance with clear limits

One guided revision and re-review per gate. Three shared 45-minute clinics within the core, with seven days notice and an asynchronous alternative. Private support stays in Academy.

Core and access begin on activation. Dates follow your accepted offer. External tools and vendor exams cost extra. Learning does not guarantee a job, income, vendor certification or client work.
